Philadelphia, Nov. 3.—"Beat Dart-mouth" was the cry of the University f Pennsylvania football warriors as they started preparations on Frank-lin field today for the game with the Hanover eleven here next Saturday. The Quakers came out of the Penn State game in the best of shape, barring a few minor injuries and every member of the team was on the field in togs today with the exception of Simpson and Journeay, both of whom had late afternoon classes.

Although the backfield squad was given only the lightest drill, the linemen got their full portion of hard work. For nearly an hour the varsity forwards battled with the scrubs who were using Dartmouth plays altogether and the showing of the regulars was more than satisfactory to the coaches.

NEW HAVEN AT 80. Old and New Convertibles Also Reach

New York, Nov. 3 .- Further response was made by stocks today to the de-pressing character of news affecting speculative opinion. The market was impelled by a downward course at the outset by the decline in American stocks at London, which was supplemented by moderate selling here for foreign account. At home much was made of the over-night despatches from Washington concerning the reported determination of the government to adopt a sterner policy in dealing with the Mexican problem.

New Low Record.

The highly unfavorable bank statement of last Saturday, showing a deficit, also affected the market adversely. Call loans were renewed at 6 per cent. It was expected, however, that the return of funds put out to meet November payments would quickly eliminate the small deficit. Call funds broke late in the day to 2 per

cent. The brief filed for the government in the suit to dissolve the International Harvester corporation was, cited as an other cause of depression. The street regarded the statement of the government's petition as indicating an uncompromising attitude in the enforcement of the Sherman anti-trust law. Particular attention was drawn to the government's request for disintegration of the company in such a manner that "no two disintegrated parts shall be acquired by or come under the control of companies having common stockholders or companies otherwise under common control or influence.

The decline in stocks ran from one to two points among nearly all of the leaders. Pressure was not severe and unnatural hunger, picking the nose, great thirst etc. are indications of worms.
